

## Solar Photovoltaics(PV)- Self Survey Form

In order for us to provide a free provisional quotation please can you supply the following digital photographs:

1. Picture(s) of the proposed roof for the PV array.
2. Picture(s) of any possible over shading issues you are aware of.
3. Picture(s) of the grounds/access for scaffolding requirements.
4. Picture(s) of the existing electrical consumer board.
5. Picture(s) of the attic space/roof truss timbers.

Please can you also provide the following information:

- A) Name
- B) Address including post code
- C) Contact Telephone number(s)
- D) Details of the electrical history of the house (eg when was the last rewire)
- E) Any other information you feel is relevant
- F) Proposed budget or output(kWpeak) you wish to invest.

Once you have had time to digest our provisional quotation, we will have to undertake a site survey to discuss the project with you.

Part of this consultation discussion will be the assessment of the solar horizon, roof assessment and electrical periodic to determine the suitability of PV systems for your property. A final quotation is then issued for your perusal.
